MEMORANDUM FOR THE RECORD

SUBJECT: Status of War Planning (Office of Operations)

On 22 November 1957 I had lunch with Jean Moreau at his request. He expressed considerable dissatisfaction with the status of war planning in OO, particularly that relating to the FBID. He said, for example, the current plan calls for the FBIS people in Cyprus to be evacuated to Libya, but that this has not been discussed with any US force in Libya and no definite arrangements have been made concerning living and work space in the evacuation area. He proposed that he and I should visit both Cyprus and Saigon to get a first-hand look at the problem and that new more realistic plans should be developed thereafter.
